

# FLAKER, MODULAR, HC FM-300AKE-HC-SB

Product series: FM

Item number: F088-C101

Hoshizaki FM ice makers generate quality granular ice, such as Flake ice. The light texture of granular ice has a quick cooling effect, creating an environment of uniform temperatures, without causing unpleasant freezer-burn. This is why Hoshizaki Flake ice is highly popular and considered the ideal material to prepare and layer hygienic and attractive food displays.

For flake ice, the extruding head is equipped with wide channels and multi-blade cutters.

The FM-300AKE-HC-SB uses refrigerant R290. This natural refrigerant is not only climate-friendly, but also boosts the machine when it comes to performance and production capacity.

#### Material

The exterior and the auger are made of stainless steel. The closed water circuit provides maximum protection against any type of contamination during ice production. All Hoshizaki machines are easy to use, clean, and maintain.

#### Unique Technology

The inner workings of Flakers is designed to prevent unpleasant calcification and bacterial contamination. For example, the use of carbon graphite bushings instead of conventional ball bearings allows the machine to work entirely without grease.

#### Smart Design

Like all Hoshizaki Ice makers, the FM-300AKE-HC-SB is designed to last and comes with smart design extras, such as the intuitive control display for preventive maintenance.

#### Perfect Fit

With outside dimensions W x D x H of  $560 \times 700 \times 780$  mm, the FM-300AKE-HC-SB is compact and is a perfect fit for small spaces.

### Plug&Play

The smart plug-and-play design guarantees an easy and quick set-up.

## **SPECIFICATIONS**

Product title	Flaker, Modular, HC
Production capacity (kg/24h) approx.	300
Electric connection	1/220 - 240V/50Hz
Electric consumption (kW)	0.9
Outside dimensions W x D x H (mm)	560 x 700 x 780
Ice type	Flake

Refrigerant	R290
Cooling system	Air Cooled
Product configuration	Modular
Net weight (kg)	81
Gross Weight Packed (kg)	88
Corresponding bin(s)	B140SA, B210SA, B340SA
